VISUALIZE KARHUTLA

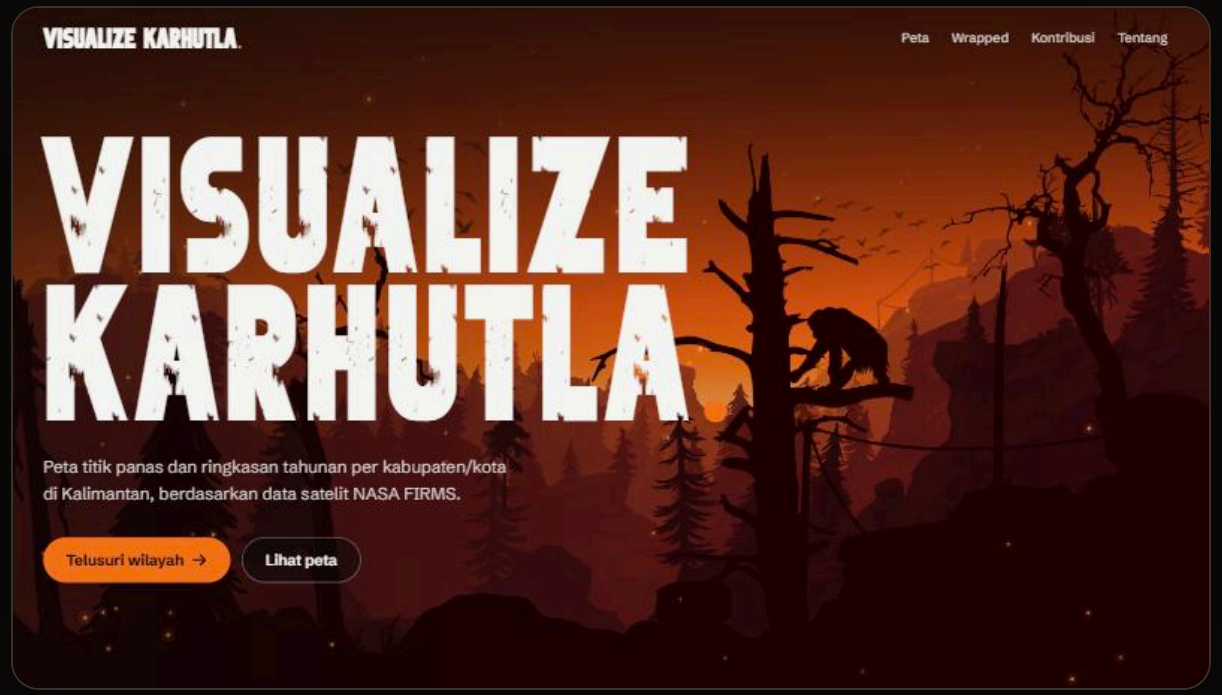

HOW TO CONTRIBUTE.

An open project that maps Kalimantan's 2026 forest and land fires. Here is how you can help, step by step.

ABOUT THE PROJECT

What is Visualize Karhutla?

- An interactive hotspot map and a yearly summary for every regency in Kalimantan.
- Built on NASA FIRMS satellite data, with burned-area figures from credible news sources.
- "Karhutla Wrapped": a story you can share for your regency or all of Kalimantan.
- **Open source**, and it grows through contributions from readers like you.

OVERVIEW

Seven ways to help.

Send an article

Reputable reporting on fires in Indonesia, for the reading list.

Contribute data

Burned-area figures per regency, with a source and period.

Report a correction

Spotted a wrong number or term? Tell us where.

Suggest an idea

Features, accessibility fixes, wording and translation.

Submit a template

Illustrators: share artwork of any size for the campaign.

New

Build with us

The code is open. Send a pull request.

Spread the word

Share the site and the Instagram Story templates.

All of it starts at /kontribusi

BEFORE YOU START

What you need.

A free GitHub account

Submissions use GitHub Issues. Sign up for free at `github.com/signup`.

Everything is public

Anyone can read what you send. Please do not include personal data.

Reviewed first

A maintainer approves every submission before anything is published on the site.

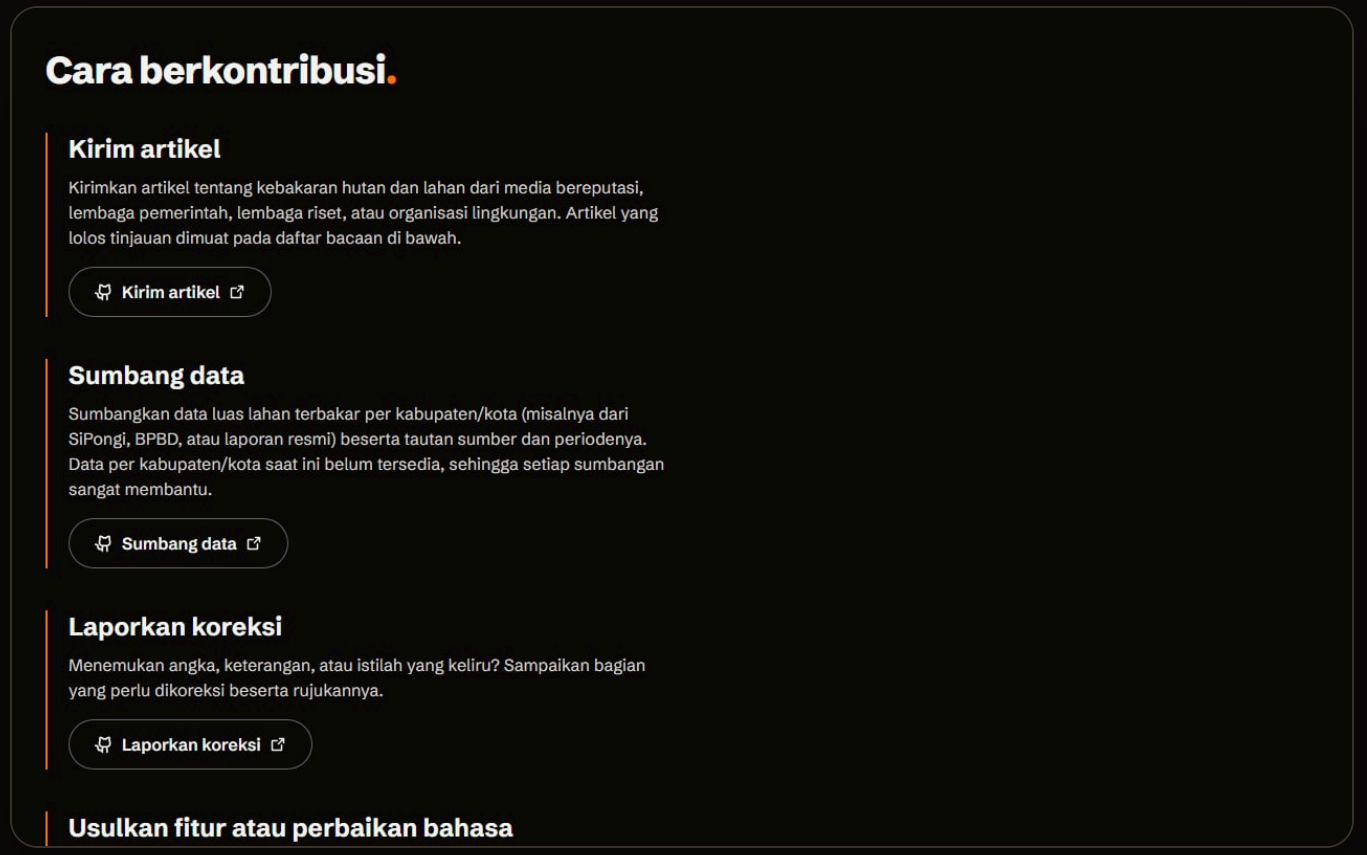

The site interface is in formal Indonesian. This guide translates the labels you will see.

STEP 1

Open the Contribute page.

Go to `/kontribusi` ("Cara berkontribusi" means "ways to contribute").

Pick a path. Each button opens the matching GitHub form in a new tab.

Screenshot: "Kirim artikel" = send an article, "Sumbang data" = contribute data, "Laporkan koreksi" = report a correction, "Usulkan" = suggest.

STEP 2

Fill in the form.

1. Sign in to GitHub when asked.
2. Complete the required fields (marked with a red asterisk).
3. Add the link or file that supports your submission.
4. Press **Submit new issue**.

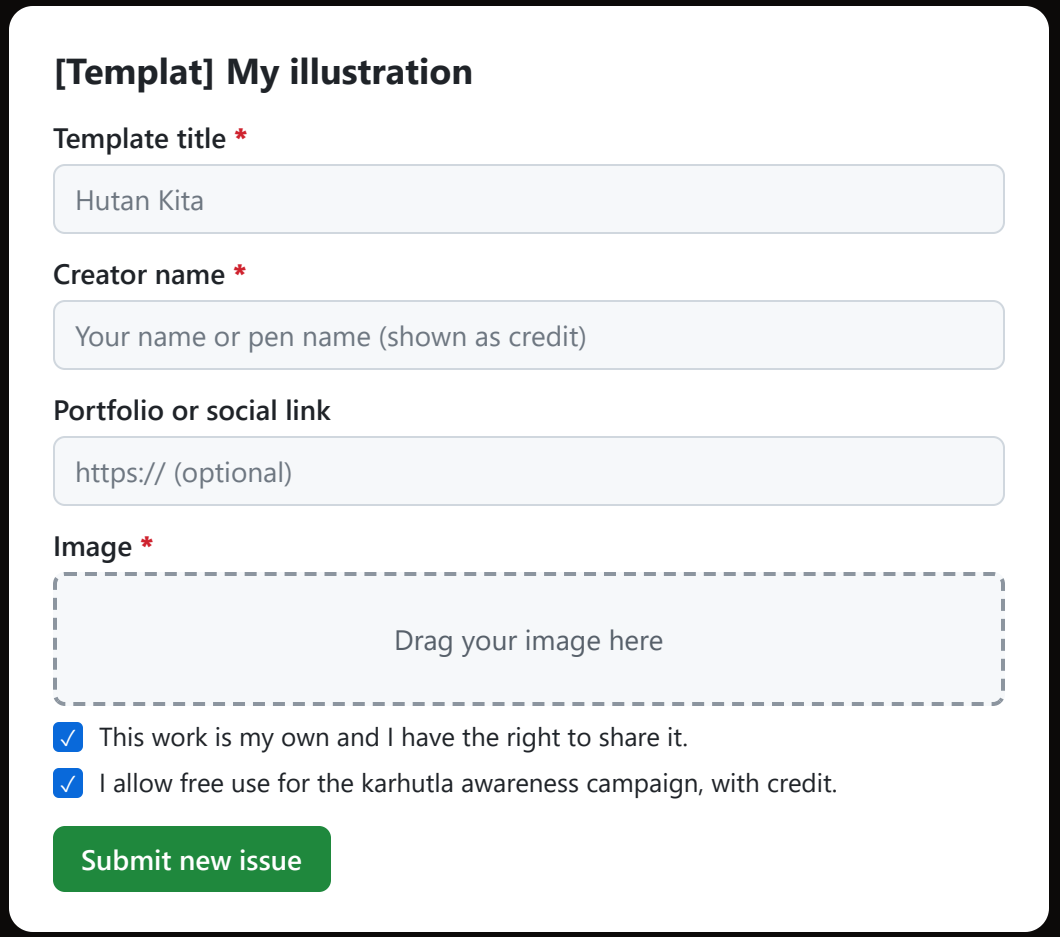

Illustration of the template form fields (not a live screenshot).

ARTICLES AND DATA

What makes a good submission?

Articles

- From reputable media, government bodies, research institutes or environmental NGOs.
- About forest and land fires in Indonesia.
- A public link, no paywall if possible.
- One or two sentences on why it matters.

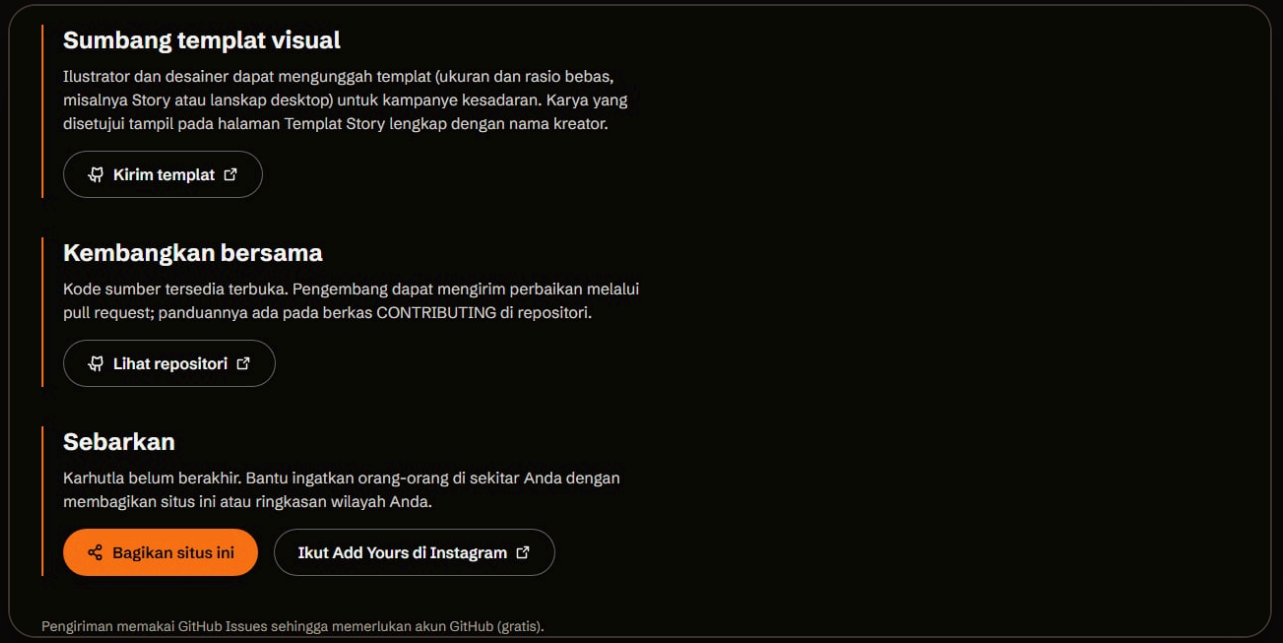

Data

- Burned area per regency or province (for example SiPongi, BPBD, official reports).
- Always include the source link, the period and the unit.
- Never invent numbers: leave blank if unknown.
- Corrections: say what is wrong and give a reference.

FOR ILLUSTRATORS

Submit a template.

- **Any size or ratio**: Instagram Story 9:16, desktop landscape, or anything else.
- PNG, JPG, WebP or GIF. Up to 12 MB each, up to 6 files. No SVG.
- Give your name for credit and, optionally, a portfolio link.
- Tick both confirmations about ownership and free use.

Screenshot: "Sumbang templat visual" = contribute a visual template. The "Kirim templat" button opens the form.

AFTER YOU SUBMIT

What happens next.

1

You submit

Your form becomes a public GitHub issue. Nothing is published yet.

→

2

Maintainer reviews

Checks the content, credit and that the work is yours to share.

→

3

Approved

The maintainer adds the label `setujui-templat`.

→

4

Automatic publish

An automated workflow optimizes the image, saves it to the repository and redeploys the site.

→

5

It goes live

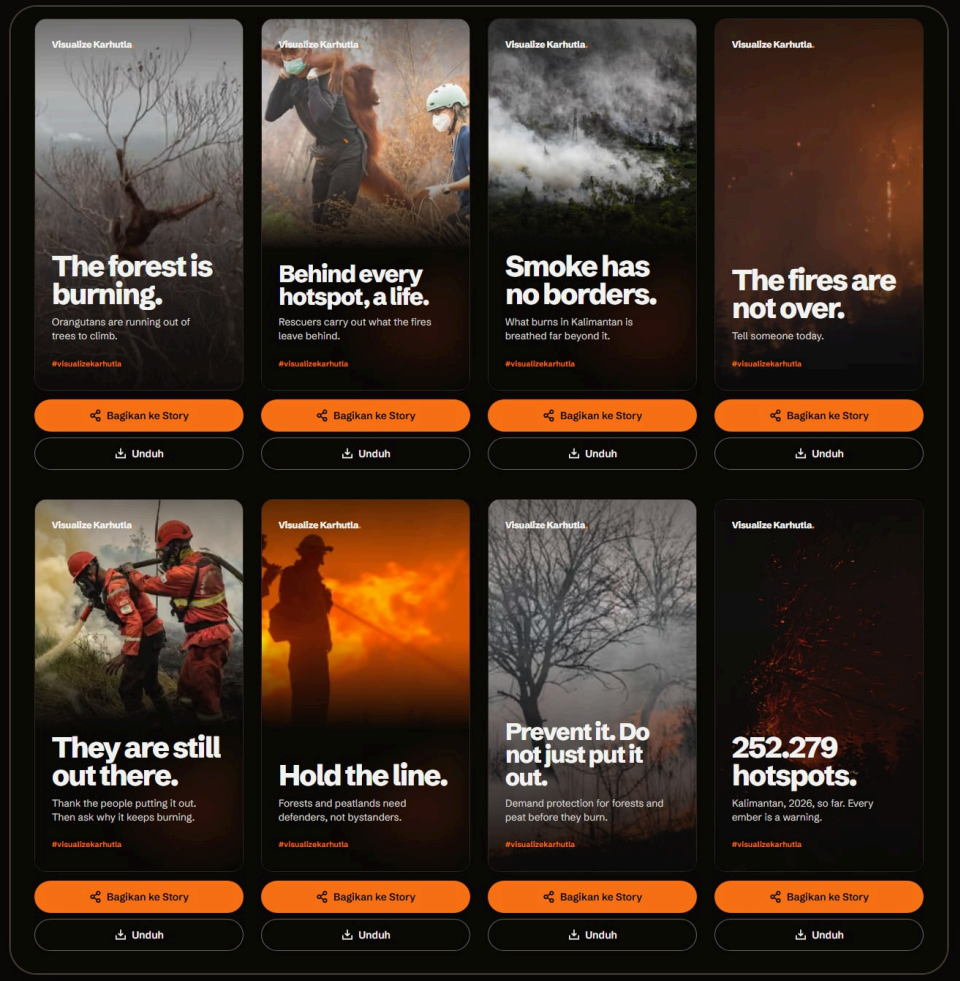

Your template appears in the "Galeri warga" (citizens' gallery) with your name. The issue is closed with a thank-you.

Only approved work enters the repository. Declined or unclear submissions stay as issues and may get follow-up questions.

SPREAD THE WORD

Use the story templates.

1. Open `/templat` ("Templat Story").
2. Press **Bagikan ke Story** (share) on a phone, or **Unduh** (download).
3. Post it to your Instagram Story with **#visualizekarhutla**.

Eight ready-made 1080 x 1920 templates with campaign lines in English and real fire photos.

INSTAGRAM

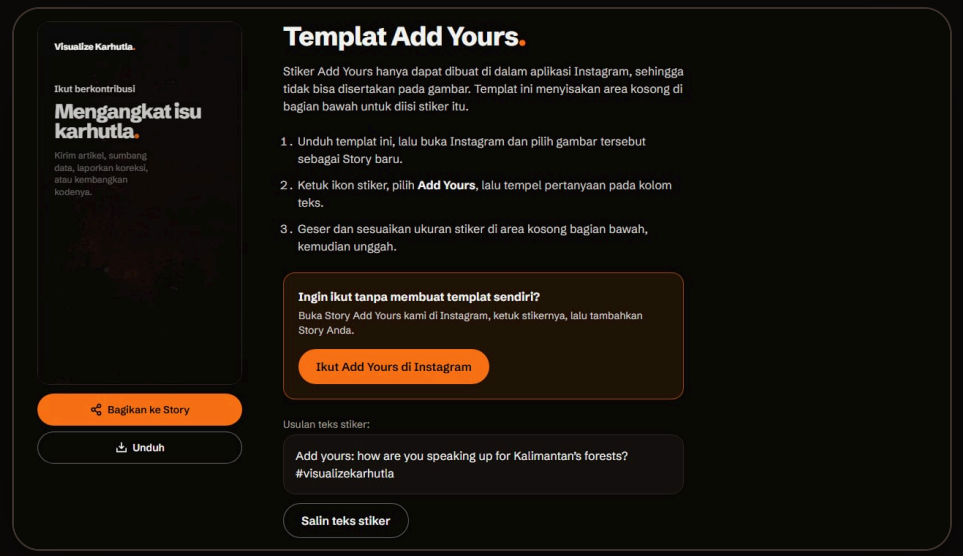

Start or join an Add Yours chain.

1. Download the **Add Yours** template and post it as a new Story.
2. Tap the sticker icon, choose **Add Yours** and paste the prompt.
3. Move the sticker into the empty space on the right, then post.

Suggested prompt:

```
Add yours: how are you speaking up for Kalimantan's forests? #visualizekarhutla
```

Or tap "Ikut Add Yours di Instagram" on the page to join our Story directly.

FOR DEVELOPERS

Contribute code.

1. Fork the repository and create a branch.
2. Run `npm install`, then `npm run dev`.
3. Make your change and run `npm run build` until it passes.
4. Open a pull request describing what and why.

House rules

- UI text is formal Indonesian ("Anda", not "kamu").
- Every number shows its source and date.
- Never invent data; leave it empty if unavailable.
- Details: `CONTRIBUTING.md` in the repository.

THANK YOU

The fires are not over.

Help us keep Kalimantan's forests in the conversation.
